

Key features of the Individual Savings Account and Junior Individual Savings Account

keyfacts[®]

The Financial Conduct Authority is a financial services regulator. It requires us, Quilter Investment Platform Limited, to give you this important information to help you decide whether our Individual Savings Account or Junior Individual Savings Account (JISA) is right for you. You should read this document carefully so you understand what you are buying, and then keep it safe for future reference.

This product is provided by Quilter Investment Platform Limited.

Please read this document carefully

The purpose of this Key Features Document is to give you a clear and balanced summary of the information you need to help you make a decision about whether the Individual Savings Account (ISA) or Junior Individual Savings Account (Junior ISA) is right for you.

Unless otherwise stated, all references to ISA in this document will apply to the Individual Savings Account and Junior Individual Savings Account. In cases where the two ISAs differ, this is made clear in the text. In the case of the Junior ISA, when we refer to 'you' as the account holder, we mean the parent or guardian of the child in whose name the Junior ISA will be opened.

Please read this Key Features Document in conjunction with the other important documents below available from your financial adviser.

Thank you

Other important documents:

Key Information Document and Key Investor Information Document

- These show information about an asset you are considering investing in. They are produced by the fund manager and made available by Quilter. Your financial adviser must provide you with one of these where appropriate. References to Key Information Documents (KIDs) throughout this document also mean Key Investor Information Documents (KIIDs). KIIDs are being phased out and replaced by KIDs by 31 December 2026.

Asset Lists

- These show the assets available to invest in, together with details of their objectives and risks. You should refer to the latest asset lists if you decide to change your asset choice in the future.

Key Features Illustration

- This is your personalised Key Features Illustration. It summarises how your investment might perform and details the charges that will be taken.

Investing with Quilter

- This is a brochure explaining the benefits of investing with Quilter and the products and investments available.

Making the Cost of Investment Clear

- This explains the roles of each party involved in your investment and what charges are applicable.

Terms and Conditions

- These are the specific Terms and Conditions relevant to the ISA you have chosen.

Charge Information Document

- This document details the specific costs and charges that are applicable to your investment.

About us

We are part of Quilter plc, a leading UK-focused wealth manager, providing advice-led investment solutions and investment platform services. Listed on the London and Johannesburg stock exchanges, Quilter plc manages £106.7bn of investments, as at 31 December 2023.

Quilter enables financial advisers to deliver the very best service to customers and their families, to help them achieve their financial goals. We offer a comprehensive range of products and investments through our award-winning online investment platform.

Investing with Quilter

Where we use the term 'platform' in this document, this means Quilter's technology platform, which hosts collective investments and ISAs as well as bonds and pension products.

Quilter's platform is an innovative way to manage your investments. It provides access to a wide choice of assets to invest in, together with a range of tax-efficient ways to hold them, within a single consolidated portfolio.

The Individual Savings Account (ISA) offers you the opportunity to hold the assets of your choice in a tax-efficient way. The assets available to invest in include around 2,600 unit trusts and open-ended investment companies (OEICs) from over 180 fund management groups. We also offer access to over 800 exchange traded funds, exchange traded commodities and investment trusts.

Our asset range spans a broad range of asset classes, sectors and markets and gives you the freedom and flexibility to choose a selection of investments that is right for you. Your financial adviser may recommend the use of the WealthSelect Managed Portfolio Service. **Throughout this document, references to the WealthSelect Managed Portfolio Service are in bold like this.** Access to a range of other discretionary investment management services is also available.

The ISA also gives you the facility to hold interest-paying cash within your account, and has flexible ISA functionality that allows you to withdraw and replenish holdings in your ISA within the same tax year without it affecting your annual ISA subscription allowance. As it is not possible to withdraw assets from a Junior ISA until the child has reached 18, flexible ISA functionality does not apply.

i For more information see our '**WealthSelect client guide**', available from your financial adviser.

We support your financial adviser with tools and services to give them a better understanding of our technology platform and your investments with us. These tools and services can be used by your financial adviser with you at any time. They include:

- Communications that can be used by your financial adviser to inform you about your investments.
- Analysis tools that can be used by your financial adviser to help them work out what their recommendations should be.
- Training on how our technology platform works and changes in financial services regulations.

Aims

The Individual Savings Account (ISA) and its benefits

An ISA can allow you to enjoy tax-efficient, medium- to long-term growth. There is no personal liability to pay tax on any income received or capital gains made within your ISA and you don't have to declare the income or gains on your tax return.

There are four main types of ISA:

- Cash ISA
- Innovative finance ISA
- Lifetime ISA
- Stocks and shares ISA (our ISA is a stocks and shares ISA)

There are two types of Junior ISA:

- Cash JISA
- Stocks and shares JISA (our Junior ISA is a stocks and shares JISA).

Our ISA provides a tax-free environment in which you can hold stocks and shares as well as cash, allowing you to switch between them as and when you require, on a next-day basis.

It enables you to spread and adapt your chosen assets as you wish, according to your financial goals and attitude to risk.

You can:

- have easy access to your money, through either regular or one-off withdrawals
- switch assets within your ISA
- earn interest on cash held within your ISA
- keep track of your investments, conveniently and simply, with just one set of account documents, no matter how many assets you invest in
- cash in the whole or part of your ISA whenever you wish
- replenish any withdrawals you have made within the tax year, without it affecting your annual ISA allowance.
- move your existing ISA investments to your ISA with Quilter, without any loss of tax benefits.

Please note: It is not possible to withdraw money from a Junior ISA until the child is 18, when the account will convert to a normal ISA.

When you invest through Quilter you can hold and manage your ISA and all your assets within a single, consolidated portfolio. We provide an environment where you and your financial adviser can better control your investments; where you can review them, react to any developments in the market, and if appropriate make any changes to your choice of assets, a process known as switching.

Your commitment

What you have to do as the investor

You should satisfy yourself that you understand the features and risks of this service, so that you can decide whether it is likely to meet your needs and expectations in terms of taking an income, capital growth and tax planning.

Making payments

You can invest a lump sum, pay in regular amounts over the year or a combination of the two up to a current maximum of £20,000 for an ISA or £9,000 for a JISA for the 2024/25 tax year. If you have agreed an initial fee with your financial adviser, it can be paid on top of this maximum, enabling you to make full use of your ISA allowance.

 See your personalised **Key Features Illustration** for more information about the charges

If you are making regular payments you must invest at least £99 a month (£50 per month for a Junior ISA). For lump sum payments the initial minimum is £2,500 (£500 for a Junior ISA) but there is no minimum for subsequent lump sum investments. You can choose to divide your ISA allowance between different ISA types (Cash, Stocks & Shares or Innovative Finance) as you wish. Additionally where you are eligible you can contribute up to £4,000 each tax year in a lifetime ISA, however your combined contributions to all your ISAs must not exceed £20,000 (for the 2024/25 tax year). Junior ISA investors have the option to have one stocks and shares JISA and one cash JISA. They cannot access lifetime or innovative finance ISAs.

Although our ISA is a stocks and shares ISA, it also gives you the ability to hold cash or money market funds alongside stocks and shares, within the same ISA.

Choosing and reviewing your assets

You need to choose the assets in which to invest your money. Your financial adviser will be able to help you with this and, will provide you with a Key Information Document for each of your chosen assets.

To ensure that the ISA and your chosen assets continue to meet your needs, you should monitor their performance regularly, consider new assets that become available and make whatever changes (switches) may be necessary. Your financial adviser will be able to help with this.

If you have agreed with your financial adviser to use the WealthSelect Managed Portfolio Service, the choice of assets held within the managed portfolio will be made by the Portfolio Manager. If you have chosen to invest via a discretionary investment manager, then again the choice of assets will be made by the portfolio manager.

 For more information see our ['WealthSelect client guide.'](#)

Keeping in touch

There is no minimum period for holding an ISA but you should consider it to be a medium- to long-term investment. The Junior ISA must be held until the child becomes age 18. You will need to keep us informed about any future change of address or contact details so we can maintain efficient records for your benefit.

Risks

Factors that could affect your ISA

All types of investment involve some risk. The ISA gives you access to a wide variety of assets. Their value and the value of any income from them may fall as well as rise. This means we cannot guarantee the amount you get back when you cash in your ISA. It may be less than forecast in your personalised Key Features Illustration, or less than you invested, for the following reasons.

Choice of assets

- The assets available for you to invest in all have specific objectives and associated risks. These differ according to the assets held within them. For example, if you choose 'emerging market' OEICs that are invested in parts of the world with less well established economies, their value could be subject to considerable price variations – known as 'volatility'. Similarly, some assets, such as those investing in property, can be difficult to sell and you might not be able to sell or switch from such assets when you want. It is not possible to withdraw money from a Junior ISA until the child is 18 and the account has converted to a normal ISA, however assets held within the Junior ISA can be switched throughout the lifetime of the account.

 See the relevant [asset lists](#) list for more information

- If you don't review the choice of assets within your account regularly and monitor their performance, they may fail to meet your expectations.
- If the assets in your ISA do not match your attitude to risk (willingness to accept potential losses), they may not perform as you anticipate.
- If you do not give us eligible investment instructions, we may place your payment(s) in cash while we await your revised instructions.
- During periods of poor stock market conditions or uncertainty we or fund managers may suspend dealing in the fund due to liquidity issues. Where a fund is suspended you will not be able to buy or sell units in that fund until the suspension is lifted.

Charges and withdrawals

- The effect of charges may be higher than illustrated. If you switch to assets with higher charges than those originally illustrated, or if fund management costs increase in the assets you initially chose, the effect of charges will change.
- If you cash in the account (not possible for a Junior ISA) you may get back less than you paid in. For more details see your personalised Key Features Illustration.
- If you take greater withdrawals than originally planned, the value of your account will be less than shown in the illustration.

Transfers

- Transfers of existing ISAs to your ISA with Quilter will be made via re-registration where possible. However, if assets in your existing ISA are not being re-registered, and they are therefore transferred as a cash amount to us, or you request a cash transfer, you may lose potential income or growth during the time it takes to complete the process.
- If you transfer your cash ISA to us, it is likely that investing in a stocks and shares ISA will involve a greater degree of risk, compared to that of the cash ISA.
- If you transfer from us to another ISA manager, we will re-register your assets where possible. However, if the new manager cannot accept re-registration and instructs us to sell the assets, we will transfer the proceeds as cash. Your ISA will retain its advantageous tax status, but you could lose the opportunity of investment growth or income during the period of the cash transfer.

Tax

- Tax rules could change in the future.

Cancellation risk

- If you decide to cancel your investment within the first 30 days, you may get back less than you invested if its value falls in the meantime.

Questions and answers

Q1. Could the Individual Savings Account be right for me?

The section titled 'Aims' on page 3 details the benefits available to ISA investors.

Quilter Investment Platform Limited does not give investment advice nor do we make any judgements on your behalf about the merits or suitability of this stocks and shares ISA.

Your financial adviser will help you understand if it is a suitable solution for your investment needs. If you do not have a financial adviser and if you are not comfortable making investment decisions without professional advice, this account is unlikely to be the right one for you.

The Individual Savings Account could be right for you if:

- you want to invest tax-efficiently over the medium- to long-term, in unit trusts, open-ended investment companies (OEICs), exchange traded funds (ETFs), exchange traded commodities (ETCs) or investment trusts, with the aim of achieving growth, bearing in mind that growth is not guaranteed
- you are a UK resident, aged 18 or over for the ISA, or the child is under 18 for the Junior ISA
- you are happy to accept more risk to your capital than saving in a cash ISA through a bank or building society.

The Individual Savings Account might not be right for you if:

- you have no other savings
- you are not happy to accept the risk of potential investment losses, with no guarantee of growth
- there is a need to withdraw money before the age of 18 (only relevant to the Junior ISA)
- you would like to retain control of money invested in a Junior ISA after the child has reached age 18.

 For more information see the [Terms and Conditions for the ISA](#)

Q2. How does investing with Quilter work?

When you hold investments from a variety of product providers and asset managers, you have to deal with a number of different companies.

Obtaining separate valuations, issuing investment instructions or simply updating your personal details can involve numerous different systems, lots of paperwork and could be very time consuming.

Investing with Quilter makes life less complicated. We enable you to consolidate your entire investment portfolio in a single, web-based location, meaning you and your financial adviser can access your investments quickly and easily. This means you have more control of your financial position, can react more quickly to market developments, make plans and alter your asset choice easily if you need to.

You can invest in your chosen funds through the following Quilter products and services:

- Individual Savings Account (ISA) – a stocks and shares ISA
- Junior Individual Savings Account (JISA) – a stocks and shares ISA for children under 18
- Collective Investment Account (CIA) – this investment does not have any particular tax advantages, however it is a convenient way of investing your money. This can be either held directly or within an offshore bond or trust or a UK Registered Pension Scheme
- Collective Retirement Account (CRA) – a registered pension scheme
- Collective Investment Bond (CIB) – an investment with an element of life assurance.

The ISA, Junior ISA and CIA are provided by Quilter Investment Platform Limited. When you invest in these services, our role is to provide and service your account and to give you direct access to a range of assets.

The CRA and CIB are provided by Quilter Life & Pensions Limited. When you invest in a CRA or CIB, our role is to administer your bond or pension product.

Quilter Investment Platform Limited and Quilter Life & Pensions Limited are both part of Quilter plc. Important information about each of the above ISAs is in the relevant Terms and Conditions, which you can obtain from your financial adviser.

Please bear in mind that as you are investing in assets through Quilter rather than directly, you will not automatically receive individual voting rights in those assets, since they are held on your behalf in Quilter's name or our custodian's. If you wish to attend meetings and exercise voting rights, you can request to do so, subject to our agreement with the asset manager. If you do, we will make arrangements for this if we are under a regulatory obligation and provided that, in our opinion, there is enough time to do so. Similarly, although we will inform you of any significant asset news through our 'fund updates', you will not receive directly any fund manager reports that may be distributed to direct investors. You should consider how important these factors are to you.

In addition to holding investments, you can access a range of cash savings accounts through the CashHub (CHB). You will be able to view any CHB cash savings accounts online, alongside your Quilter investments.

The CHB is an online service distributed by Quilter and powered by Bondsmith. When you save money using this service, our role is to provide customer support and ongoing servicing.

 For more information see the [Terms and Conditions for the ISA](#)

Q3. What are unit trusts and OEICs?

Unit trusts and open-ended investment companies (OEICs) are pooled investment funds, also called 'collective investment funds'. These provide a useful way for savers to invest for long-term growth, without the need for specialist investment know-how.

Collective investment fund managers pool investors' money to buy assets such as UK and international stocks and shares, commercial property, fixed interest assets or cash deposits. These are known as the fund's 'underlying assets'.

Typically a fund manager heads a team of analysts and stock buyers. It is their responsibility to make whatever investment decisions are necessary to keep the fund's performance in line with its objectives and to look after all the regulatory requirements and administration involved.

Different funds have different objectives. For example, some specialise in particular asset types or geographic areas. Some are managed in such a way as to produce a particular outcome.

Because your risk is spread across many underlying assets, your investment is less reliant on the success of just a few.

When you invest in a unit trust you buy units and when you invest in an OEIC you buy shares. For the purposes of this document, references to units also mean shares, unless otherwise indicated. The number of units or shares you receive depends on the amount you invest and the price of the units at the time of your investment.

The value of your investment will vary according to the total value of the fund, which is determined by the performance of the underlying assets.

Unit trusts and OEICs are either accumulation or income funds. Accumulation funds retain any income (such as dividends or interest) received from underlying assets within the fund. The accumulated income will be reflected in the price. Income funds regularly pay out any income received from the underlying assets on specified dates.

Q4. What are Exchange Traded Funds, Exchange Traded Commodities and Investment Trusts?

These assets are sometimes collectively referred to as 'Exchange Traded Instruments' (ETIs).

Unlike OEICs or unit trusts, an exchanged traded fund or commodity (ETF or ETC) trades on a stock exchange. An ETF will typically invest in the underlying assets of an index, like the FTSE 100. An ETC will typically track the price movement in a commodity, like gold.

The pricing of an ETF and ETC can be affected by supply and demand, and is not purely determined by the value of underlying assets. However, its price is controlled through a mechanism known as 'arbitrage' which helps to maintain the price close to the net asset value of its holdings, although some deviation can occur.

Investment trusts, are much like funds but are publicly listed and closed ended, meaning there is a limited number of shares available. An investment trust trades on a stock exchange. The investment trust is overseen by a fund manager and a board of directors.

The pricing of an investment trust is based solely on supply and demand, so the cost of the asset and its underlying value will not always be aligned. The difference in the net asset value (NAV) of the trust and its price is what is known as the 'discount' or 'premium' and is important to consider when trading in these asset types.

Additionally, investment trusts, ETFs and ETCs may borrow money to try and boost investment returns, something that is not possible through an OEIC or unit trust. This therefore increases the risk of investing in these assets.

Because these asset types are traded on a stock exchange, Quilter makes an additional charge for trading these investments, known as the dealing charge, and it covers the cost of stockbroking services. Stamp Duty Reserve Tax is also applicable on investments into investment trusts and a levy (Panel on Takeover and Mergers Levy) applies where you buy or sell investment trusts exceeding £10,000 in value.

Quilter Investment Platform Limited use an external custodian to hold ETIs on your behalf and we have undertaken extensive due diligence on this firm and will continue to do so on a regular basis.

Q5. *Is my money guaranteed and what might I get back?*

No, the value of your investment in the ISA and any income from it can go down as well as up and you may not get back the original amount invested. It is important to be aware that you will lose any capital guarantees if you transfer from a cash ISA into a stocks and shares ISA. Your personal Key Features Illustration gives examples of what you might get back and the projections shown are based on a range of assumptions about future growth rates, which are not guaranteed.

The amount you get back will depend on:

- how much you have invested
- how long your money has been invested
- the investment performance of your chosen assets
- how much you have previously withdrawn (not applicable to a Junior ISA)
- deductions from your account, which will include our charges and any fees you have asked us to pay your financial adviser on your behalf.

 See your personalised **Key Features Illustration** for more information

Q6. *How can I invest?*

Regular investments

You can only make regular investments monthly or annually by Direct Debit. You can select when you would like your Direct Debit payments to be made, on any date, from the 1st to the 28th of the month. You can stop these at any time, either online, or by writing to us (see 'Contact details' on page 14).

Lump sum investments

Lump sum investments can be paid by cheque, by bank transfer or, for online applications, by debit card.

Transferring your ISA from another ISA manager to Quilter

If you already have a stocks and shares ISA with another ISA manager, you can transfer it into your Quilter Investment Platform ISA by a process called 're-registration'. This means existing assets are not sold; you simply move the administration to us from your current provider and because the assets are invested at all times you will not miss out on market movements.

Re-registration is only possible if your current ISA manager agrees to re-register your assets and the same assets are available with us in our asset range. **Re-registration cannot be used in conjunction with the WealthSelect Managed Portfolio Service. This is because the funds held within the portfolio are unique to Quilter and therefore not available through any other ISA manager.**

 See the relevant **asset list** for more information

If the assets you hold in your current ISA are not available with us, or they are not being re-registered for any reason, they will be sold and the proceeds of the sale paid to us as a cash transfer, which we will hold in cash within your ISA, after which you or your financial adviser can switch into a revised asset choice. There is no loss of tax benefits when doing this.

You can also transfer a cash ISA into a stocks and shares ISA with us, in which case the other ISA manager will send us the cash proceeds, which we will invest in the assets you choose.

Whether you transfer a cash ISA or a stocks and shares ISA to us, any amounts invested in the transferred ISA:

- during the current tax year will count towards your overall current tax year subscription limit and will therefore affect the amount you can pay into your ISA with us
- in **earlier** tax years will not count towards your current tax year subscription limit.

For investors in the Junior ISA, if the child has a Child Trust Fund (CTF), it must be transferred to the Junior ISA because JISA regulations do not permit a child to hold a Junior ISA as well as a CTF.

Before transferring you should seek advice from your financial adviser.

Online application

If your application is made online, your financial adviser can give you a form to sign to provide us with a record of your signature because our ability to carry out any instructions from you in the future (for example, to withdraw money) may be restricted until we have verified your identity.

Q7. Where can I find out about the charges?

Your personalised Key Features Illustration, and the accompanying Costs and Charges Statement, give details of the charges made for managing your account and the investments, how they are taken and the effect they could have on the value of your account. The document '**Making the cost of investment clear**', available from your financial adviser, explains the charges and costs involved, how they are calculated and who receives them.

Q8. What assets can I invest in?

You can invest in a wide range of UK and overseas investments, including OEICs, unit trusts, exchange traded funds and commodities (ETFs and ETCs), and investment trusts.

i You can find out more about the assets available and whether they could be right for you by reviewing the information available on our website.

<i>Unit trusts and OEICs</i>	<i>ETFs, ETCs and investment trusts</i>
Access to around 2,600 collective investment funds from over 180 fund management groups, spanning a broad range of asset classes, sectors and markets.	Access to over 800 of the market's most popular exchange traded instruments.

We do not provide advice on selecting assets. Your financial adviser will discuss with you which assets are most appropriate for your needs. This will depend on a number of factors, including your financial objectives, the level of investment risk you are comfortable with and the breadth of asset choice you require.

You can change your choice of assets as your needs change. If you are choosing or changing assets without using a financial adviser, the range available to you may be limited to assets that are not classed as 'complex' or deemed by their fund manager as suitable only for investment on an advised basis.

Managed portfolio service

If you and your financial adviser decide to invest using the WealthSelect Managed Portfolio Service, we, as the Portfolio Manager, take decisions about changing assets in line with the investment strategy detailed in the relevant Managed Portfolio factsheet. Your financial adviser will select the Managed Portfolio suitable for you based on their assessment of your attitude to risk, your environmental and social preferences for investing, and your investment objectives.

When you invest in our WealthSelect portfolios, a managed portfolio service charge will be deducted from your account on an ongoing basis. You can find more details of this charge on our website or from your financial adviser.

We can only continue to provide this service as long as your financial adviser remains appointed. This is because your financial adviser has the ongoing responsibility for assessing the suitability of the portfolio to ensure that it meets – and continues to meet – your needs, in line with their duties under Financial Conduct Authority rules.

i Further information about the Managed Portfolio Service is available in our '**WealthSelect client guide.**'

Discretionary Investment Management

Depending upon your situation, your financial adviser may recommend the services of a discretionary investment manager who will monitor and manage the assets you hold in your account.

Quilter provides technology that allows your chosen discretionary investment manager to manage your assets alongside your financial adviser. If you choose to use a discretionary investment manager it is likely that they will charge for their services, which may be facilitated through a portfolio fee that will be deducted directly from the ISA. Your financial adviser will help you determine whether this approach is suitable for you.

The cash facility within your ISA

Although this is a stocks and shares ISA it can hold cash indefinitely. When you hold cash within your ISA, it's pooled together with other clients' money and placed in saving accounts with a range of trusted banking partners. Interest will be calculated daily on the balance and paid on the first working day of each month.

There is no Service Charge applied to any money held in the cash facility within your ISA. Instead we pay you a rate of interest on the cash in your account and we are paid by retaining a proportion of the interest we receive from our banking partners. You can find out the rate of interest and amount we retain at any time by referring to our website [quilter.com](https://www.quilter.com) and searching for 'interest rates on cash'.

Portfolio rebalancing

Your financial adviser may recommend managing your assets inside a 'model portfolio', and they may suggest automatically rebalancing the portfolio to keep the proportions allocated to individual assets in line with your original asset choice. **Portfolio rebalancing will usually take place quarterly, when instructed by the portfolio manager, if you use the Wealth Select Managed Portfolio Service.**

Phased investment

You can also opt to spread the timing of your investment into your chosen selection of assets, by initially investing in cash and selecting 'phased investment'. Your investments will then be phased into your choice of assets automatically each month, over a period chosen by you.

Q9. What are Key Information Documents (KIDs)?

Some assets are complex in nature which is why we refer you to the appropriate asset list for information on your chosen assets. This however only provides summary information. Key Information Documents and Key Investor Information Documents (KIIDs) are issued by the asset manager to give more comprehensive information about the way each asset works and its investment risks. Key Information Documents (KIDs) are being introduced gradually from January 2018. If no KID is available for a particular asset, the asset manager concerned will provide a Key Investor Information Document (KIID).

Both documents present similar information but are based on two separate pieces of European legislation. To avoid confusion, KIDs will eventually replace all KIIDs by 31 December 2026.

KIIDs contain details of assets and (where available) must be provided to anyone who is thinking of investing into an ISA or Collective Investment Account.

When you read a KID or a KIID, you will notice that some information is presented differently from that in other Quilter documentation. This is because the information in the KID and the KIID reflects a direct investment in the asset, whereas the fund factsheets and asset lists provided by Quilter reflect the accurate figures for investment through products and services.

i You can find out more about KIDs and KIIDs, and an explanation of these differences by visiting quilter.com/investments/platform-funds

Q10. When will my payments be invested?

Your payment will usually be invested into your chosen assets the next dealing day following acceptance of a valid application and payment.

Unit trusts and OEICs are typically priced on a daily basis. The time at which they are priced is known as the 'dealing point'. We operate a 'cut-off time' prior to the dealing point. Any deals placed before the cut-off time will receive the price at the next dealing point. Deals placed after the cut-off time will receive the price at the next available dealing point.

The prices for assets in your ISA are calculated on a 'forward pricing' basis. This means they can only be determined once the details of all daily sales and purchases are known. Because of this we cannot tell you the exact price of chosen assets in advance.

Exchange traded funds, commodities and investment trusts are typically priced throughout the day, however your valuation will reflect the last known closing price of the asset.

i Full details of the cut-off times and dealing points are on the fund information pages on our website quilter.com/dealing-points and please also refer to our asset lists.

Q11. Can I change my choice of assets?

You can switch your assets at any time into other assets available in our asset lists.

If you have agreed with your financial adviser to invest in the WealthSelect Managed Portfolio Service, please bear in mind that all asset switches within the Managed Portfolios are made by us, as the Portfolio Manager. If you or your financial adviser want to switch assets within the Managed Portfolio to other assets, you can do so but it will automatically mean that the Managed Portfolio Service will stop and any future changes to it will be your responsibility. You should therefore discuss any proposed switch with your financial adviser. If you wish to switch from one Managed Portfolio to another your financial adviser can do so on your behalf.

i For more information see our ['WealthSelect client guide'](#)

How do I switch assets?

You can submit switch instructions directly to us using our secure online Customer Centre, provided you have registered to use this service. Your financial adviser will also be able to switch online for you unless you cancel their authority to do this by contacting us. If a switch instruction is placed prior to the cut-off time for your asset, it will be dealt at the next dealing point. Information on available assets can be found in the asset lists.

i Full details of the cut-off times and dealing points are on the fund information pages on our website quilter.com/dealing-points

You can post your instructions to us using our switch form. Instructions received by post will usually be processed on the day of receipt, and dealt no later than the following dealing day.

If you instruct us to switch a specific amount of money from one asset into another asset, the sale and purchase of units will normally take place on the same day. For all other switch instructions, the purchase will usually be made at the next dealing point after all of the sales in your instruction have taken place and the asset managers have confirmed the sale proceeds.

In some cases, buying or selling units can take up to two working days. This means that if you are switching from one asset to another the whole process will typically take no more than five working days from receipt of your instruction.

You or your adviser can also redirect future Direct Debit payments into a new asset choice using our client and adviser online services. Alternatively, you can complete a switch/redirection request form, which is available from us. If you want both your existing and future regular investments to be moved into new assets, you must request both a switch and a redirection.

Before you switch or redirect future contributions into new assets your financial adviser must provide you with a Key Information Document for each of the new assets.

We reserve the right to reject or defer an instruction, or apply an appropriate charge on an asset or individual transaction if, under FCA guidelines and best market practice, we reasonably consider any activity to constitute 'market timing'. Market timing is the practice of speculative investment with the aim of gaining short-term advantage. It typically involves a high volume of transactions and short holding periods. Such activities are to the detriment of the long-term investors for whom our products are designed.

i For more information see the [Terms and Conditions for the ISA](#)

Q12. Do you charge for switches?

Quilter does not currently make an administrative charge for switching unit trusts or OEICs. We reserve the right to introduce a charge in the future, if administration costs make this necessary. If we have to do this we will let you know. You may incur charges made by the managers of the assets you are switching.

If you are switching ETFs, ETCs or investment trusts a dealing charge will be made to cover the cost of stockbroking services. You can read more about this charge in the document 'Making the cost of investment clear.'

If you have agreed with your financial adviser to invest in a WealthSelect Managed Portfolio, Quilter will not charge you for moving your investment to a Managed Portfolio or for changing from one Managed Portfolio to another. Once you are invested within the Managed Portfolio, a Managed Portfolio Service charge will be deducted from your account on an ongoing basis. You can find more details of this charge on our website or from your financial adviser. If exchange traded funds, commodities or investment trusts are bought or sold within the managed portfolio, then a dealing charge will also be paid.

i For more information see the document '[Making the cost of investment clear](#)'

Where your financial adviser has recommended the services of a discretionary investment manager, it is likely that the manager will charge a fee for their services and where appropriate this will be deducted from your account on an ongoing basis, until you cease using their services.

Q13. Can I take money out?

Junior ISA: It is not possible to take income or to make a partial or full withdrawal of money from the Junior ISA. Money can only be withdrawn once the child is 18 and the account has converted to a normal ISA.

You can cash in part of your ISA, request regular withdrawals, and request income payments, at any time, either online, or by completing the relevant form and sending it to us (see 'Contact details' on page 14).

The ISA is a flexible ISA, meaning that you can take money out of your ISA and replenish what you have withdrawn in the same tax year without it affecting your annual ISA allowance. This gives you additional flexibility as and when you need it.

Please note that it is not possible to put money back into the ISA once it is fully closed. Therefore if you want to make use of the flexible ISA functionality, you must keep enough money in the ISA to cover fees, charges and any income that you are taking, until you replenish any assets you have withdrawn earlier in the tax year.

Cashing in part of your account

You can specify the amount you would like as a percentage or a monetary amount and this can be taken from either a selection of assets or across all assets. For a one-off withdrawal the maximum you can take is equivalent to 95% of the account value or 95% of any individual asset's value.

Regular withdrawals

You can choose to take a regular amount from your account either as a percentage of your account value or as a fixed monetary amount. You can choose the months in which you would like to receive regular withdrawals. The minimum amount which can be paid is £25.

To meet withdrawals, we will sell units from the assets in your account in line with your instructions.

Income payment option

Some assets will distribute income in the form of dividends and interest.

You can choose how we handle such distributions; we can:

- reinvest them into your ISA
- hold them as cash within your ISA
- pay them into your nominated bank account (this option is not available for a Junior ISA).

Q14. *When will I receive my money?*

Junior ISA: It is not possible to withdraw money from a Junior ISA. Money can only be withdrawn once the child is 18 and the account has converted to a normal ISA.

Cashing in part of your account

To meet your request to cash in part of your account we will normally sell units at the asset's next dealing point if we receive the instruction before the published cut-off time.

i Full details of the cut-off times and dealing points are on the fund information pages on our website quilter.com/dealing-points

We will normally pay the sale proceeds, less any charges and fees (if applicable) within ten working days from when we receive your instruction. This is because it can take up to five working days for us to receive the sale proceeds from the asset managers before we can complete our process for sending the money to your bank account.

Regular withdrawals

The payment will be made directly to your bank account on a regular date of the month that can be specified by you (any date, from the 1st to the 28th), on the months you have selected.

The first payment will be made in the next month available of your chosen payment months (subject to the minimum amount being met).

Income payment option

If you opted to receive payments of income distributions, they will be paid directly to your bank account when we receive the money from the asset manager(s) or these can be held and paid out to you at set frequencies (such as monthly).

i For more information see the [Terms and Conditions for the ISA](#)

Q15. *How will you keep me informed about my ISA?*

We will provide you with a statement showing the current value of your account at the end of each quarter. The quarterly dates are based on the quarterly anniversary of the date you opened your first account with Quilter. For example if your account anniversary date is 5 January, statements will be issued shortly after 5 January, 5 April, 5 July and 5 October each year. You can also request a statement in between these periods if you wish. We will also send you an annual Costs and Charges Statement, showing the actual costs of your investment over the previous 12 months.

If you wish to know the value of your account at any time, you can register on our website for our online customer centre. Alternatively, if you do not have access to our online services, you can call our Customer Service Centre on 0808 171 2626.

The latest available prices of the units in the assets available, together with other asset-specific information, are normally published daily in the Financial Times and the Daily Telegraph, as well as on digital.feprecisionplus.com/quilter

If you are invested in a WealthSelect Managed Portfolio, your financial adviser will provide you with quarterly information about the performance of your investments.

We will confirm in writing the details, including dates and prices, of all transactions resulting from applications, switches, one-off withdrawals and closures. We will not issue any certificates for investments held.

However, we will not confirm in writing any periodic transactions that you have agreed in advance involving the purchase or sale of assets. Details of these transactions will be set out in your regular statement.

Such transactions include:

- regular investments paid by Direct Debit
- phased investments
- portfolio rebalances carried out by your financial adviser or portfolio manager
- regular withdrawals
- dividend and rebate reinvestments
- selling units to meet our charges or to pay fees that you have agreed with your financial adviser.

We do not make an additional charge for our regular valuations and reports.

Q16. *What about tax?*

Personal tax

- There is no personal income tax or capital gains tax liability on investment growth or income.
- You don't need to declare your ISA investments on your tax return.
- Assets distribute income in the form of dividends or interest. Following changes to regulations in recent years, income received by your ISA from dividends or interest payments, will not count towards your annual dividend or personal savings allowances.

i See your personalised [Key Features Illustration](#) for more information about the charges

Q17. Can I close or transfer my ISA?

Junior ISA: It is not possible to withdraw money from a Junior ISA. Money can only be withdrawn once the child is 18 and the account has converted to a normal ISA. However, the account can be transferred/re-registered to another provider before this time, in line with the explanation below.

You can close your account at any time, either online, or by completing a **Withdrawal/Closure form**, which is available from us or your financial adviser, and sending it to us (see 'Contact details' on page 14).

Once the assets have been sold, we will normally pay the full amount, less any charges or fees due, directly into your bank account within ten working days from the time we receive your instruction.

If further income distributions or rebates are received after the account has closed, we will pay these to you after 90 days and any distributions or rebates received after this point will be paid following receipt from the fund manager, provided they total £10 in value, otherwise we will pay it to our chosen charity.

You can transfer your ISA to another ISA manager at any time. This involves re-registering units in the assets you have in your account as well as transferring the ISA itself. **Re-registration cannot be used in conjunction with the WealthSelect Managed Portfolio Service. This is because the WealthSelect researched assets are unique to Quilter and therefore not available through any other ISA manager.**

Re-registration is a process involving transferring investments without having to sell them. However, if the new ISA manager is unable to accept re-registration of an asset and instructs us to sell them, we will transfer the proceeds as cash to the new manager instead.

Before the transfer can take place, you must contact the new ISA manager to complete their requirements. We will then receive confirmation from them of your transfer authority. Transfers of just part of your ISA are not permitted so a request to transfer to another ISA manager will result in the whole of your ISA being transferred.

A transfer, whether by re-registration or cash transfer, does not jeopardise the preferential tax status of your ISA.

Q18. What happens to the ISA upon death?

Upon your death, ISA assets will remain invested within the ISA. Any income and gains will remain tax-free for three years following death, or until closure if earlier, or when the estate is wound up.

The value of the ISA will form part of your estate for inheritance tax purposes and once a 'grant of representation' has been issued we will accept instructions from your relevant legal representatives.

Following your death, if you have a surviving spouse or civil partner they will be entitled to subscribe an 'Additional Permitted Subscription' (APS), into an ISA in their own name, in addition to their personal ISA allowance. The APS amount is the higher of the value of the ISA at the date of death or the value of the ISA upon closure, and it can be subscribed up to three years after your death.

If a child invested in the Junior ISA dies, its tax-efficient status will end on the date of death and any dividends and interest received after that may be subject to income tax and any gains may give rise to capital gains. There is no option for a surviving spouse to inherit an APS where the child holding the Junior ISA dies.

Full details will be provided to your legal representatives when we are notified of your death.

If you have agreed with your financial adviser to use the WealthSelect Managed Portfolio Service, this will cease to apply once we receive written notification of your death. If you are paying an adviser fee or a discretionary managed portfolio fee this will also cease. The same also applies if you are investing in a discretionary managed service.

Q19. Can I change my mind?

Yes. When we notify you that your application for the Individual Savings Account has been accepted and send you the appropriate documentation, we will remind you that you have 30 days to change your mind and cancel your application. You can do this by writing to us (see 'Contact details' below).

If you decide to cancel, we will give you your money back. If, however, the value of your investment has fallen in the meantime, you will not get back the full amount you paid in. If, at your request, we have paid fees to your financial adviser for this transaction, we cannot reclaim or refund the fees, as your fee agreement is with your adviser not Quilter. If you have authorised an initial adviser fee, but choose to cancel your application before payment of the fee is made, you may be liable to pay the outstanding amount directly to your financial adviser.

In the case of a transfer, you will not be able to reverse the transfer itself but you will be able to close your ISA or transfer it to the original, or another, ISA manager, provided they agree to accept it. It will be your responsibility to contact the other ISA manager to make arrangements to transfer your ISA. Please note, it would not be possible to close the Junior ISA under these circumstances.

You should also be aware that cancellation rights will not apply where you are making an additional investment by topping up an existing account, with the exception of transfers received from another ISA manager.

Other information

Contact details

If you need any further information about this service, please contact your financial adviser in the first instance. If you wish to contact us direct, you can do so in the following ways:

Phone: 0808 171 2626

Conflicts of interest policy

Conflicts of interest which affect our business are set out in our Conflicts of Interest Statement of Practice, alongside details of how these are managed, which is available on our website. All appropriate steps are taken to identify and manage any such conflicts in order to mitigate their potential impact on the duty we owe to our customers.

Staff and directors are expected to act in the best interests of Quilter, whilst still observing their duties to our customers. No director or employee may engage in an activity that gives rise to a personal financial interest, has the potential to damage Quilter's reputation, or is likely to give rise to a risk of damage to the interests of one or more customers.

Suitability

Quilter Investment Platform Limited does not give investment advice, nor does it make any judgements on your behalf about the merits or suitability of the transactions we arrange. The fact that an asset is available in one of the asset lists does not imply that it is suitable for you. The Financial Ombudsman and the Financial Services Compensation Scheme will therefore not be able to consider any complaints against Quilter relating to the suitability of any investment for your particular circumstances or needs.

About the Terms and Conditions

This Key Features Document gives a summary of the Individual Savings Account and Junior Individual Savings Account. It does not include all the definitions, exclusions or account Terms and Conditions.

If not enclosed with this Key Features Document, a copy of the account Terms and Conditions can be found on our website. For more information about the asset ranges, please ask your financial adviser or contact us direct, but remember that we cannot give investment advice.

We reserve the right to amend certain contractual terms, some without prior notice, as explained in the account Terms and Conditions. If we do so we will let you know in writing.

The contract you are applying for is subject to the law of England and Wales.

All our literature and future communications to you will be in English.

You can request a copy of a **Key Investor Information Document (KIID)**, **Key Information Document (KID)** or the scheme particulars and report and accounts of the assets available by calling our Customer Service Centre on 0808 171 2626.

Should material changes occur to the assets you invest in, we will notify you as soon as possible in writing.

Regulatory protection

Under Financial Conduct Authority (FCA) rules we classify all our investors as 'retail clients', which means you benefit from the highest level of regulatory protection. **Please note that if you are using the WealthSelect Managed Portfolio Service for your ISA, the contractual relationship for this service is between you and your financial adviser and the regulatory responsibility for the service rests with them.** The regulatory responsibility for your Individual Savings Account itself rests with Quilter Investment Platform Limited.

Compensation scheme

The Financial Services Compensation Scheme (FSCS) acts as a safety net for customers of financial services providers. If Quilter Investment Platform Limited cannot meet its liabilities, the FSCS may provide compensation. For investments (such as the Individual Savings Account), the level of compensation you can receive from the scheme is as follows:

- the first £85,000 is protected in full.

Similarly, if the manager of a fund you are invested in cannot meet its liabilities, Quilter Investment Platform Limited can make a claim on your behalf to the FSCS as follows:

- the first £85,000 per customer investment with the manager.

No compensation will be available under the FSCS in the event of the failure of an exchange traded fund, exchange traded commodity or investment trust.

If the asset you are invested in is not domiciled (based) in the UK, the FSCS may not cover any losses if the manager cannot meet its liabilities.

Further information about compensation arrangements is available from the FSCS website www.fscs.org.uk

Complaint procedures

Customer satisfaction is very important to us at Quilter, but if you do have any cause to complain about the services provided, either by your financial adviser or Quilter, there are clear procedures laid down by the Financial Conduct Authority to ensure that your complaint is dealt with fairly.

If your complaint relates to the advice you have been given, **including the suitability of a Managed Portfolio**, you should write in the first instance to your financial adviser. If it concerns the service you have received from Quilter, please contact us at the address on page 14, and we will do everything we can to resolve the problem.

If you are not satisfied with the response you receive you can complain to:

Financial Ombudsman Service
Exchange Tower
London E14 9SR

Complaining to the Ombudsman will not affect your legal rights.

Quilter Investment Platform Limited, which provides this Individual Savings Account, is authorised and regulated by the Financial Conduct Authority.

Quilter's products are available only through professional financial advisers.
