

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Premier Miton European Opportunities Fund (the "Fund") – Class A Shares

A sub-fund of Premier Miton Investment Funds 3 (the "Company")

Class A Accumulation Shares, ISIN no.GB00BFX16H37

Authorised Corporate Director ("ACD") - Premier Portfolio Managers Ltd.

Objectives and investment policy

To provide total returns, comprised of income and capital growth, over the long-term, being five years or more. Five years is also the minimum recommended period for holding shares in this fund. This does not mean that the fund will achieve the objective over this, or any other, specific time period and there is a risk of loss to the original capital invested.

A minimum of 80% of the fund's assets will be invested in shares of companies listed in Europe, excluding the UK.

The fund is actively managed which means that the fund manager will manage and adapt the portfolio depending on their assessment of the broad economic environment and market conditions.

The fund manager may invest in large, medium and smaller sized companies across all industry sectors although it is expected that there will be a bias towards medium sized companies, which the fund manager considers to be of a market value of between £2 billion and £15 billion. The exposure to different sized companies may change over time according to economic and stock market conditions.

The fund may also hold other investments such as companies in other geographical jurisdictions such as the UK and the USA, government and corporate (company) bonds, convertible bonds (bonds that can convert into company shares), collective investment schemes and cash and cash-like investments.

The fund may invest in derivatives and forward transactions (these are contracts whose value is based on the change in price of an underlying investment) for the purposes of efficient portfolio management, including hedging (hedging is designed to offset the risk of another investment falling in price).

The full investment objective and policy, which outline all the eligible investments, are available in the Fund's prospectus.

You can buy, sell and switch shares in the fund on any UK business day. We will need to receive your instruction before 12 noon to buy shares at that day's price.

Terms explained:

Accumulation shares: any income made by the Fund will be reinvested to grow the value of your investment.

Derivatives: this is a financial contract whose value is related to the value of an underlying asset or index, often used with the aim of managing risk or enhancing returns.

Bonds: Issued by companies or governments and similar to a loan in nature, usually paying a fixed or variable interest rate.

Corporate bonds: Issued by companies and similar to a loan in nature, usually paying a fixed rate of interest.

Convertible bonds: a type of bond that the holder can convert into shares of the issuing company in certain circumstances.

Efficient portfolio management: managing the Fund in a way that is designed to reduce risk or cost and/or generate extra income or growth.

Hedge: an investment which aims to reduce the risk of adverse price movements in an asset or group of assets.

Forward transactions: a type of derivative between two parties to buy or sell an asset at a specified price and time in the future.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

The Fund is ranked as 6 because it has experienced relatively high rises and falls in value over the past five years.

Please note that even the lowest ranking does not mean a risk-free investment.

The Fund holds a wide range of capitalisations in equities concentrated by geography across Europe and can include the UK. Equities, as an asset class, tend to experience higher volatility than many other asset types such as bonds or money market instruments. Funds concentrated in one geographic area can be vulnerable to market sentiment in that specific area and can carry a higher risk. The fund will hold securities denominated in foreign currencies adding to both risk and the possibility of gain. Funds with higher price volatility are structured to generate higher returns but at the risk of larger potential losses.

The indicator may not take fully into account the following risks of investing in this fund:

- **Liquidity risk:** during difficult market conditions some securities, such as equities issued by mid capitalisation companies, may become more difficult to sell at a desired price.
- **Legal or tax risk:** arising from a change in legal regulations, tax rules or the application of them.

A more detailed description of the risks identified as being applicable to the Fund are set out in the 'Risk Factors' section of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the fund. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	10.00%
Exit charge	0.00%
These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.	
Charges taken from the Fund over a year	
Ongoing charges	1.57%
Charges taken from the Fund under specific conditions	
Performance fee	NONE

- Switching charge (for switching into the Fund from another fund) 0.00%.
- The ongoing charges figure ("OCF") is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are units/shares of another fund).
- For more information about charges, please refer to the Fund's prospectus.
- For the Ongoing Charge, the figure was calculated as at 31/05/2023.

Past performance

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 01/12/2015
- Share/unit class launch date: 14/03/2018.
- Performance is calculated in GBP.
- Performance is net of charges (excluding entry charge) and net of tax.
